

# THE 2001 FIRST ROBOTICS COMPETITION

## TEAM UPDATE #1

**Date: January 5, 2001**

---

### PLEASE DISTRIBUTE THIS TO OTHER TEAM MEMBERS!

FIRST will provide rules updates and other important information to teams exclusively via the FIRST web site at <http://www.usfirst.org/2001comp/TeamUpdates/>.

Please check the team updates portion of the web site on a regular basis to insure that your team does not miss critical information about the 2001 FIRST Robotics Competition. FIRST recommends assigning at least one team member the duty of keeping up to date on all team updates. This person or group should be responsible for distributing information contained in team updates to the appropriate team members.

### KIT OF PARTS CORRECTIONS

Due to an error during packing, some Electronics Bags may not contain two female 15 pin solder cup connectors as stated in the kit list, and may instead contain one male and one female 15 pin connector. FIRST has packaged an extra female 15 pin connector in the Miscellaneous bag in each kit. Please discard any male 15 pin solder cup connectors received in your kit.

The 15 pin molded cables found in the Red Kit are M-M (male-to-male) cables, not M-F as stated in the kit list.

### IMPORTANT FIELD BLUEPRINT CORRECTIONS

Refer to the field blueprints on the FIRST website for accurate information regarding the stretcher. Disregard the stretcher dimensions on the blueprints distributed at the Kickoff Workshop.
