

THE 2002 FIRST ROBOTICS COMPETITION MANUAL

EVENTS SECTION

Regional-specific event information is only available on our web site, www.usfirst.org. The web site allows FIRST to provide the most current, event-specific information to teams. Download the Regional sections for the events you will attend, and put them in this section.

You will find a generic Table of Contents, on the last page of the *FIRST Robotics Competition Manual, Administrative / Drayage / Shipping* section. You may want to copy and use it to separate the events. It is important that you read all sections of the manual for event overviews, administrative items, instructions, specifications, and deadlines relevant to all events.

The Regional sections on the web site will provide more details about the following:

- Event Location
- Directions to the Event Site
- Hotel Information
- Site-Specific Drayage Information
- Site-Specific Shipping Information
