

The LOGO MOTION Hook

In the event that a TEAM cannot retrieve the MINIBOT per the rules in the manual, the FIELD personnel will retrieve the MINIBOT using a hook described in this document.

The hook is a modified “Lightweight Retrieving Hook,” McMaster-Carr part number 5918A24. The point has been ground down (but is still tapered), and the hook has been reformed to accommodate MINIBOT retrieval. General dimensions are as follows:
